In an effort to keep pace with Arizona's expanding forest based enterprises, the Arizona State Forestry Division has updated the agency's directory of forest industries and hazardous fuel reduction contractors.

The updated directory is available for download at the following address:

The goal of the Division's Wood Utilization & Marketing program is to facilitate the enhancement of the economic and intangible benefits that forest resources provide to society by (1) Providing technical and marketing assistance to forest based industries, (2) Creating new opportunities that can enable cost effective methods of reducing hazardous forest fuel levels, and (3) Identifying emerging markets for forest resources through collaborative work with state and federal agencies, and industrial organizations.

Funding for this project was provided by the US Forest Service
